# I Have an Ideal

Xue Feng

Following the footprints of immortals, sages, oracles and saints, I have crossed and trekked numerous treacherous mountains and rivers. Roaming all through the wilderness of soul, I have been spreading the message of the Greatest Creator. The wishes of God and Buddha and the expectations of oracles and saints have converged to form my ideal, which is as clear and bright as the shining sun and can be food of thought for you to meditate over.

Human beings have been trekking along a long path soaked with blood. Jesus and Sakyamuni have revealed to us that in the universe there are many higher spaces of life and have earnestly and tirelessly admonished us not to go astray from the great road of life. Numberless immortals, sages, oracles and saints have exerted their utmost effort for the happiness of mankind. Their souls are still shining brightly over us, warning us not to act against the law of nature and wishing us to live a happy life. However, blinded by the dense fog of “civilization”, mankind has been straying further and further away from the great road...

I want to kindle a beacon of hope to light up the endless darkness, bringing mankind a ray of hope. I want to create an oasis out of the vast and isolated desert, offering an auspicious and harmonious habitat for life on earth. I want to build a land of spirit and soul out of the boundless ocean of flaunty material prosperity, leading to the land those people who yearn towards the Greatest Creator, love life and nature, and possess beautiful human nature and soul and making them eternally severed from the abyss of sufferings. I will shepherd them safely to the thousand-year world to enjoy the wonderful time of the millennium.

The people favored by God and Buddha are still miserably shackled in spirit and soul. In this bustling world overrun with desire for material acquisition, people with a purer and better heart are more prone to spiritual and psychological tortures, and cannot afford even a moment of peace and quiet. Every place reeks of putrid smells. What meet the eyes are wickedness and evils that have gone unpunished. Man's tremendous amount of legal articles and religious teachings are powerless to avert the depravity of morality and the prevalence of wickedness. The viciously misleading evil soul and the junk thought have taken up the throne of truth. Despotism has not only caused the loss of personal and spiritual freedom for the governed but

also has caused the governing class to be trapped in the quagmire of desperation, without any hope to obtain the true freedom of life.

I want to tell people that the plight of mankind does not lie in the material aspect but in the spiritual aspect.

The wasteland of spirit and soul is the real source of human suffering. Seeking the homestead for spirit and soul is an urgency for mankind. The blind pursuit of material acquisition is only analogous to quenching one's thirst with poisoned wine or stopping water from boiling by scooping it up and pouring it back. Thus such acts will cause the ruin of not only the earth but mankind itself.

An era is a demoniac era if the dignity of a person is determined by the amount of money he has earned and the social position he has attained and if the value of man is not measured by his moral character and good deeds. A society is an evil society if it allows its subjects to become upstart through speculation and plundering instead of getting rich with honest and diligent labor. A government is a despotic and satanic government if it spares no effort to force out new thinking, attempting to lock people in an ignorant and barbarian and savage world. A nation will be empty void of wisdom and oriented toward insanity and destruction if it does not advocate dedication and love but blindly instigates its people to use violence.

Man's worry originates partly from ignorance and partly from selfishness. Because of ignorance, we have invited demons in but shut the door against God and Buddha. Because of selfishness, we have chosen wickedness but abandoned righteousness. A lot of good ideals and kind moralities are often snuffed out in the cradle. The desolation of soul is the optimum soil to breed junk thought and religious plague.

Today people are engulfed in information. Television, networks, newspapers and magazines, books, and lectures are infusing mountains of information into us, far more than we can digest, thus causing the indigestion, malnutrition, and ill health. The pursuit of knowledge has become a morbid thirst. The more we attempt to swallow down unthinkingly, the less we understand. Various media have become the fertile soil to cultivate ignorance and manic and blind adherence.

Having no beliefs, no principles, no wisdom, and no spiritual sense, those literati have made up rancid articles under the pretense of maintaining

stability, advocating reform, carrying forward culture, inheriting legacies, publicizing morality, and promoting benevolence, and under the disguise of adhering to “belief”, cultivating oneself, pursuing freedom, and fighting despotism... They have fabricated so much cultural garbage and so many spiritual drugs that it is impossible to clean them all up. The roughly manufactured scum has become our daily food for thought, which has directly distorted our values, destroyed our human environment, and polluted our pure heart.

Having no beliefs, no principles, no wisdom, and no spiritual sense, those literati hangmen worship those rancid articles as classics under the pretense of maintaining stability, advocating reform, carrying forward culture, inheriting legacies, publicizing morality, and promoting benevolence, and under the disguise of adhering to “belief”, cultivating oneself, pursuing freedom, and fighting despotism... As for those works of wisdom, which shine resplendently with thought, they look down upon them as “heresies” and wielded their cultural butcher knife toward them without hesitation... the Chinese people, on the one hand you have been heaving sighs that China has become a land deserted by the Greatest Creator, but have you on the other hand acquired the broadness of mind to include great wisdom? Can you recognize it when great wisdom really “descends from heaven”?

I have an ideal that the Greatest Creator may enter China and the human world, that Christianity and Buddhism may regain their prevalence here, and that humanity may be restored on the beautiful land.

When conspiracy and tricks prevail over truth, justice is taunted, enthusiasm meets with contempt, reverence for the Greatest Creator is regarded as ridiculous, oppression and bully are viewed as inviolable power, the hoodwinked masses are meanwhile branded as ignorant, freedom is slandered, life is trampled, right and wrong are reversed, black and white are confused, and good and evil people mix together, then in such situations we have no choice but to search the source of life. Only in this way can we pierce through the indistinct murk and see the light. Only in this way can we steadily steer in the turbid and turbulent waves and ultimately reach the ocean of life.

In this unusual time of superficial prosperity, when actually crises are lurking everywhere, we are not yet in the position to sing praises of the virtue or merits. At a time when the journey is rough and treacherous, flattery and conservativeness cannot salvage us. Now it is not yet the time when “the bank of injustice” has gone bankrupt completely. Any non-action and dawdling

will only speed up the approach of “doomsday”. We will only eventually lose our beautiful homestead and splendid future if we are only capable of destruction and are incapable of construction, if we don’t know how to repay other people’s favors and are only bent on vengeance, and if we only want to acquire from others and do not know how to dedicate to others.

For many centuries, man’s blind behaviors have dug out an abyss, which can engulf us at any moment and thus should be filled up. The sooner it is leveled up, the better it would be.

Reverence for the Greatest Creator and adherence to his road is our only hope, because only in front of the Greatest Creator can we have equal human dignity; because we should worship the Greatest Creator so that our mind can possess soul, our knowledge be transformed into wisdom. And only in this way can we understand the meaning of life and embark on the great road of life.

You may lock yourself up in the ivory tower, lose yourself in the piles of broken papers, and engross yourself in the so-called academic research, thus placing yourself outside the social issues. In so doing, you seem to have entered a serene haven. However, can you expect any egg to remain intact if the nest is overturned? Poke your head inside a cave, leaving your hindquarter exposed and fancying that what is not seen does not exist. Can you derive from your research any great achievements that may do any good to humankind?

The unrealistic teaching or “truth” that blindly preaches pursuit of happiness of future life is absurd and wicked. A person always wearing a smile is relentless at heart; a person always with tears is cruel at heart.

Children are suffering starvation and cannot afford education; the poverty-stricken have no money to treat their diseases. However, we are manufacturing various kinds of luxury products, and building one after another lifeless skyscrapers. Isn’t this a mockery and blasphemy against life?

## Walking on my way

### Deiform Celestial

I come from far away,  
Bring the true news of life way,  
Following my step night and day,  
For I'll lead you to Heaven to stay.  
The I written today,  
There is a deep meaning inside of it lay,  
All of you come from women's bay,  
Must go back through it for a long life stay.  
Change your value up side down,  
Like a Grass hold earth tightly,  
Wash chanyuan girls' feet like washing baby,  
Your heart will be pure and brightly.  
Please walking on my way,  
You'll know something in the future by day.  
I'm crying my dear.

# Come and Walk on This Beautiful Way

Xuefeng

Come and walk on this beautiful way  
This way leads to everlasting life happy  
If you want to have a freedom life  
Come and walk on this way

Come and walk on this wonderful way  
All your pains in heart will run away  
This way guided by all sages  
Will lead to heaven directly

Come and walk on this miraculous way  
Tomorrow a celestial being you will be  
All kinds of beautiful sceneries you will see  
Kind hearted people with you all the way

Come and walk on this Lifechanyuan way  
Your life will be getting better and better day by day  
Lovers dancing and singing night and day  
For we are walking on the Greatest Creator's way

# **A Door Leading to an Everlasting Happy Life**

## **——an Introduction to Lifechanyuan**

### **Xuefeng**

We are in the last days of this age. Year 2013 is the turning point. Lifechanyuan is the last course for human beings to learn and follow. The first course was given by Buddha. The second was by Jesus Christ. This is the third. The third is the last.

Lifechanyuan contains precious truths from the greatest Creator of universe. It tells us how the universe comes into beings, how lives started, and the beginning of human being. It tells us the meaning of time and space, and the meaning of life. It also tells us the purpose of life, the cause of human suffering, the future of the mankind, the way how a person can get an everlasting happy life, and so on.

Lifechanyuan is for humble, teachable, mild-tempered, heart-ready-for-everlasting-life people. It is for those people who want to devote his or hers whole life to benefiting the mankind, meantime, want to have a happy life in the kingdom of heaven.

Lifechanyuan will usher in a new era (the Life Chanyuan era) for the mankind on this earth, it also will harvest the “ripe crops” who 100% believes in Buddha and Jesus Christ. Life Chanyuan calls out all the people to walk on the way of the greatest Creator designed for us, for it is the only way that leads to happy lives on the Earth and everlasting happy live in the kingdom of heaven.

The general news Life Chanyuan reveals is as follows.

1. The one who, created the universe, is the greatest Creator, not any god. All the gods and goddesses are created by the greatest Creator. Lives in the universe including human beings on the earth are created by gods and goddesses according to the design given by the greatest Creator. The greatest Creator has 8 characteristics. They are, unique, not having a special

image, neutral, mysterious and holy, justice, merciful and kind, almighty, wise. The greatest Creator stays at the zero point. His holy spirit spreads all over the universe. We could feel his holy spirit at any place at any time. This holy spirit is called Tao by Lao-tzu, one of the greatest men in Chinese history.

2. There are 20 worlds simultaneously exist in the universe. What we humans stays and lives in is only one of them. These 20 worlds are linked up by the zero point. This zero point is the core of the greatest Creator.
3. There are 36 spaces in this universe. The human's world is only one of them. We humans have other 9 more spaces to go to stay and live in. The 3 best spaces are named as the One Thousand Years World, the Ten Thousand Years World, and the Elysium World. There is a paradise within the Elysium World called the Fairy Islands of Celestial Beings. This is the world that Lifechanyuan will guide everyone to go to lives in.
4. Human beings comes from three channels. One channel is Jesus Christ. Another is Jehovah the god. The third is the dragon. Adam and Eve are not the ancestors of all mankind, but of some races.
5. Life is a journey. Life has no ending. Physical body is only the carrier of life. When people pass away, the physical body stops its mission and life still goes on to another journey. People who walk on the greatest Creator's way will be transferred to live in an upper world. People who walk on other ways will be transferred to a lower world. People who like family and country will come back to the Earth as a human being again.
6. The judging on life has being proceeds at every second. There is no "final judgment ", nor is there judgment upon the passing away of a life. Life goes from one world to another right away automatically. Everything that we've done has an exact recording in the inner structure of our life. We cannot hide or run away from what we have done.

7. We can't go to the heaven so long as we have one cent's debt which is not yet paid, for the law of life gravitation will pull us back. We must clear off all our debts owed to parents, wife or husband, friends, other people, and to the Earth if we want to go to stay and live in the kingdom of heaven.
8. Life has 8 profound mysteries. Anyone who knows and masters the 8 mysteries could go to any world he or she is willing to. Life Chanyuan will reveal some of them.
9. Life is an antimatter structure with the Holy Spirit. There is no life without the Holy Spirit. The Holy Spirit comes from the greatest Creator. This is why we must walk on the way of the greatest Creator. Otherwise, we have no way having an everlasting happy life.
10. Life exists for the universe. The universe exists for life. No universe, no life. No life, no universe.
11. The solar system was created only for human beings. There are no humans on the other planets in the solar system except on the Earth. The moon is made by angels. It's a metal satellite empty inside. It's a warehouse. There are some tools still inside moon. There is a door on the other side of the moon open for flying instruments in and out. This is the reason why the moon always faces the Earth with the same side.
12. All the natural things on the earth and in the universe are part of the images of the greatest Creator. All the natural phenomena on the earth and in the universe are the words of the greatest Creator. The greatest Creator never talks with man or woman in mankind's languages, but through phenomena.
13. All living lives have thoughts. But the way of thinking is quite different from each other. There are 8 different ways of thinking. They are matter thinking, imaginary thinking, associative thinking, always-correct thinking, mind-picture-creation thinking, unity-of-opposites thinking, core thinking, Only-One

thinking. Why a dog is a dog, a man is a man? Because of the ways of their thinking are different. This shows that we must have the thinking way of celestials if we want to stay and live in the kingdom of heaven.

14. Anything is possible. Impossibility goes to the impossible thinking.

15. Nothing is accidental, everything is certain, but not inevitable.

16. Getting a visa is very important if we wish to go to stay and live in the kingdom of heaven. Here the kingdom of heaven refers only the One Thousand Years World, the Ten Thousand Years World, and the Fairy Islands of Celestial Beings. Life Chanyuan provides the visa for anyone who wants it if he or she is sincerely willing to walk on the way of the greatest Creator.

17. There are only energy, structure, and consciousness in the universe. Everything that we can see or can not see is an illusion of these three elements. Everything will disappear when time goes on except for energy, structure, and consciousness.

18. No movement, no time. Time is the recorder of the movement states of all kinds of matters. So, we should try our best running away from matters if we wish to have a long, long life anywhere in any worlds. The anti-world has no time. If we cannot imagine this, let us just know that everything appears in the anti-world can be copied again and again.

19. The universe has no boundaries. It can be expanded or contracted. Space always changes its boundaries according to the movement of matters and the scope of consciousness.

20. All kinds of lives are designed by the greatest Creator and made by gods and goddesses and angels at the beginning. The theory of evolution is wrong.

21. All kinds of lives on the earth are made for serving people. Lower lives serve higher lives. So people must protect and love all the other kinds of lives, for people cannot live without them. Maltreating and excessively using them will cause humans themselves a big trouble.

22. Family, country, party, and religion are four problem makers. Where there is family, there is pain and hardship. So are the party, religion, and country. The future of the mankind will have no family, no party, no religion, and no country.

23. The best way managing and arranging human's activities is Life Chanyuan plus government. Life Chanyuan is responsible for human's spiritual and psychological needs and activities. Government is responsible for human's daily work, study, and allotment activities. Government should not be controlled by family, or political party, or religion.

24. The mankind should be led and guided by the most intelligent, well educated, civilized people, not by people who belong to a race. That some places are rich and some places are poor is not normal. Everyone should do his or her best while everyone has the right to enjoy life.

25. The core crisis humans face is the spiritual and psychological crisis. It means that we are putting the incidentals before the fundamentals, that we are doing it upside down if we ignore the spiritual and psychological crisis but emphasize on other crises, such as atmospheric temperature rises, population growth, food shortage, pollution, autocracy, terrorism, war, etc.

26. The mankind must be united as one family. The state that each one goes his own way must be ended. Everyone, every family, every country, every religion, every political party's conduct and affairs are not a single event, but related to all the people on the earth. The question is who has the capability to undertake this great and glorious task? The answer is: only Life Chanyuan. Life Chanyuan has the plan detailed on its Chinese & English web site (-[www.lifechanyuan.com](http://www.lifechanyuan.com) , [www.lifechanyuan.org](http://www.lifechanyuan.org)).

27. That is called moral practice (修行) is to follow Buddha and Jesus Christ's teachings and making one's effort on the construction of Life Chanyuan. The real meaning of moral practice lies in an effort to construct Life Chanyuan.

28. That is called life conversion training (修炼) is to widen and improve the understanding of life, to convert the way of thinking, to attain perfect consciousness, and flawlessness in one's inner antimatter life structure.

29. Consciousness makes reality. The reality we are in is the reflection of our consciousness. Everything comes from consciousness. Whether we could have an everlasting happy life in the kingdom of heaven or not depends upon whether our consciousness is perfect or not. If we have pig's consciousness, then we are pigs. If we have dog's consciousness, then we are dogs. Similarly, if we have god's consciousness, we are gods.

30. Thought is energy as well as invisible power. Thought can control other people's thinking and even can kill people from far away. So has a kind hearted thought is very important to us. Otherwise, we'll become followers of the devil.

31. From the viewpoint of celestials, some normal standpoints of human's are abnormal. Some abnormal standpoints are normal. For example, marriage; for man is normal, but for celestials, it is abnormal. Having many lovers is abnormal from man's standpoint, but it is normal for celestials.

32. Everything has its meaning and purpose. There is nothing which is useless.

33. Love will bring love. Hate will reap hate. Plant melons and we get melons, sow beans and we get beans. As we sow, so will we reap. No flukiness. Never think we could have something without effort, or that we could run away from sin by a fluke.

34. Repentance is very important. There is no perfect man in this world. So are we. Repent of our sin can lead us to the way of perfection. Perfection will allow us to live in the kingdom of heaven.

35. There is an anti-world. The Holy Spirit belongs to the anti-world. So if we have wishes, we should tell the Holy Spirit. The Holy Spirit will reflect upon our wishes now or later.

36. Try our best imagining good things, good future, beautiful environment, good health, smooth and successful way of life, etc. It will work in its way.

37. Sickness comes not from our body, it comes from our antimatter inner life structure's flaws. Or we can say it comes from our ill consciousness. We can even say it comes from our ill spiritual and psychological needs.

38. The purpose of life is for enjoyment, not for suffering. The greatest Creator likes people who enjoy people, not people who suffer. How to get enjoyment and make enjoyable life is the first concern we should think about. Enjoyment comes from not only material wealth, but mainly from wealthy spiritual and psychological offerings.

39. Besides the sense of sight, the sense of hearing, the sense of smell, sense of taste, and the sense of touch, we also have the sense of spiritual and psychological sensation. Spiritual and psychological sensation is the most important sense of all. Life Chanyuan will guide everyone on how to get this sensation step by step.

40. Birds of a feather flock together. Life Chanyuan divides people into 5 groups. One group is named H people who do everything by instinct. The second group is named S people who do everything by their selfish desires. The third group is named F people who do everything by emotion. The fourth group is named X people who do everything by reason. The fifth group is named XX people who do everything according to the way of the greatest Creator. What kind of person are you going to be?

41. Human has been guiding into a new era, Lifechanyuan era. Anyone who intends to get into this new era must prepare you yourself for matching the standard of new era. The main standard of new era are 1. walking on the greatest Creator's way; 2,.leaving families, political parties, religious organizations, races, and countries; 3. love all the people; 4. giving up all you have; 5.sincerely treat and serve other people; 6. has no jealousy; 7. like and enjoy collective activities; 8. love labor.

42. Life on earth is short. Time is flying. We have no time to explain all the details. We should look for the people who share the same belief, same life value, same life-style and try to stay and live together with them if we wish to have a joyful happy life. It is very difficult to change or convert somebody in a short period of time. So let us look for the same people whom even stay far away rather than to waste time to change the people around us whom won't share the same value with us.

43. The earth will be purified in the near future just like we sometimes make a thorough clean for our house. Some will be left and some will be cleaned away. Who is going to be left? The people who walk on the greatest Creator's way will be left. The spiritual and psychological sick people will be cleaned away.

44. New generation is much more clever than old generation. The present generation knows more than the passed generation. If we want to change something, we should depend upon present people, not on passed people. Just like we send our message through newly method internet not through post, we should listen more to what of the present people saying than passed people's saying. If we stick to the old ways we will lose good opportunity to convert our suffering life to happy life.

45. The way we are thinking is the state of our life. If we want to change the state of our life, we must change the way of thinking first. Today is the continuity of yesterday. Tomorrow will be the continuity of today. So if we wish to have a good tomorrow, let us do today for the tomorrow. Similarly, if we wish to go to stay and live in the Fairy Islands of Celestial being, let us thinking the ways now as celestial thinking.

46. Live for yourself. Don't live for others. If everyone lives for themselves, then there will be harmony. If everyone lives for others, then everything will be upside down, everything is going to a mess. This is not selfish, but reality. The selfish is benefiting one him or herself by the name of for others.

47. Listening to the call comes from our inner heart. Don't follow the traditional sound. You will find yourself through this way. Otherwise, you will lose yourself and never find the way home.

48. Always look on the bright side of the things. Negative imagining or thinking will cause sickness or trouble. The anti-world will echo what you sound.

49. Don't love one. Love as more as you like and could. Love through your heart. Don't love through the marriage law or marriage forms.

50. The value and meaning of life on earth is convert man's life way to celestial's life way by walking on the way of the greatest Creator. No matter how you rich, no matter how great and important you are, no matter how powerful you are, you are going to die at anytime at any place in the near future and all what you have will be useless for yourself when you pass away. So what is the most important thing we should thinking and doing?

(To be continued....)

2007-6-16

# The Signal Changing Direction of Life

## Deiform Buddha

Somebody told me that I couldn't be rich if I carry on working for somebody or even for government. I treated it as a signal which at last changed my life channel.

Everyday the Greatest Creator send us some signals which can change the direction of our life. Whether we can catch it or not depends on whether our heart is ready for it. Two elements make up one's fate. One is fatality, and the other is life channel. We can do nothing about fatality, for it is fixed by our previous deeds. If we want to have a bright life in the future, the only thing that we can do is focusing on our life channel. Stars will always turn around its orbit if no outer force acts upon them. As a matter of fact, everything in the universe will follow the same way if doesn't change itself or no other factors interfere with it.

Everyone wishes for a healthy, wealthy, free and happy life. The question is how to get it. Now there are three ways:

1. Always alter the direction of life just like eagles flying above the ground change their wings for the rabbits running in the fields.
2. Know as much as possible about the meaning of life, the meaning of time, the meaning of space, the meaning of the Greatest Creator.
3. Try every mean to communicate with the people whose frequency of life structure is the same as yours.

Where can we find out the answers? You can learn from Jesus, Buddha, Islam, Taoism, scientist or some other doctrines and theories. They can help you a lot. But the core of life lies upon the Greatest Creator and the Greatest Creator's systems. So the best way of realizing our ideal is going directly to the Greatest Creator. Only this way can lead us to a prosperous life.

Now there is another problem arising in our head. How can we go directly to the Greatest Creator? How can we know the Greatest Creator's system and the way the system works?

The answer is here, go inside of Lifechanyuan. It's called 生命禅院 (Lifechanyuan) in Chinese. Here you can find out all the answers about the Greatest Creator and the Greatest Creator's systems, the meaning of life, the

meaning of time and space and so on. Also, you can find many love-trust people inside of it.

People all over the world who would like to come and join Lifechanyuan will be sincerely welcomed by the people who has already in Lifechanyuan,who are called “Chanyuan Celestials”.

This short article is written especially for our brother Xianshan celestial (仙山草)。

2006-5-5 Harare

# **Eight Kinds of People that Xue Feng Admires**

**Xue Feng**

There are eight kinds of people that I admire in the human world.

## **1. People without debts**

I admire you deeply if you don't owe anybody any money or property, or have not borrowed any money from the bank and yet can entertain yourself with good food every day, have a house to live in, at night you raise your head to appreciate the stars and moon, during the day you look casually at the clouds drifting, gathering and scattering in the sky, and go sightseeing or visit friends and relatives during spare time. You are leading a life of celestial beings. It does not matter if you do not have villa or expensive car, do not have deposits in the bank, cannot afford famous brand clothes and shoes, do not have great fame or position, cannot afford the meals in a hotel, and cannot prepare any decent dishes to entertain guests. I admire you as long as you are calm and serene in mind. Do you know that there are many people who are still worried about and on the run for their livelihood?

## **2. People with good health**

You are blessed, because a good and sound health is something that cannot be bought even with mountains of silver and gold. You have had all the treasures endowed to you by heaven. Just have a look at those handicapped and diseased people and have a look at yourself, and you will understand how blessed you are. And they will admire you most.

## **3. People who are not married**

You have the greatest freedom among people on the earth. You can look at anyone you want, you can get up any time you like, you can give your money to anyone you would like to give. There is no one to supervise you, restrict you and be on guard against you. What a good fate you are born with! Just take a look at those who have got married. Don't be fooled by their smiling faces, inwardly they are extremely distressed. Thus I admire you greatly!

## **4. People who do not admire others**

You are extremely great and wise to admire nobody. Most of people's distresses are rooted in their inclination to make comparisons with others. If you don't admire others, then I should tell you, you are a man with the wisdom of celestial beings. It is the happiest thing to get on with you. You are

being yourself, going your own way, blossoming your own flowers, bearing your own fruit, and living by modeling after nature. You understand the way of the Greatest Creator. Thus you are most admired.

### **5. People with confidantes**

I admire you greatly. Your life is full of fun and interest. Yin and Yang blend to make up Tao. So you fully understand the meaning of Tao. You do not intend to possess or control each other and are still attached to each other. You have your love all your life. You have great fun and happiness when being together, and you miss each other day and night when being apart. How well do you understand life and how admired you are!

### **6. People who know how to be an ordinary person**

How many people have idled away their beautiful time of life in seeking the extraordinary! In order to pursue the extraordinary they are overburdened with debts, they go off into wild flights of fancy and go astray in search of shortcuts, they resort to trickery and hoodwinking, they go to the most extreme lengths and even end up in prison. However, you can retain a calm mind for being ordinary and settle down to an ordinary life. You enjoy simple food heartily as if you are enjoying delicacies. You work and rest as the sun rises and sets. You really know what to enjoy. You must have fully understood the philosophy of life, or you must have come from the heavenly kingdom. How admired you are!

### **7. People who have same-sex bosom friends**

In our life it is especially difficult to find a bosom friend, a person whom you can turn to in the middle of night to share your feeling, or someone to whom you can place your trust and share your secrets, or someone who would jump in front of you to block the strike of a cobra, or someone who is still close to you with smiling face even if you have sworn at him or kicked him, or someone who can share weal and woe with you. Oh, how blessed you are and how I admire you.

### **8. People capable of entertainment**

People in the paradise all know how to play and entertain. People who do not know how to play and entertain are dull and boring, and thus have no chance to go to the heavenly kingdom. You are diamond among people if you are both knowledgeable and profoundly wise, and humorous, and can always bring happiness and pleasure to others. To be with you is to be with happiness and joy. To live with you is like living in the heavenly kingdom. How can I help not admiring you!

If you are the incarnation of all the above eight qualities, you are undoubtedly an angel, and I will not only admire you but will also follow you closely.

## **Confessions of Lifechanyuan**

### **—Everyone is equal before the Greatest Creator**

**Xue Feng, Xianhe Celestial**

The physical energy or Tao of the Greatest Creator treats everything of the universe equally with no preference on any population or individual. Everything depends on the operation of Tao, such as whether we have the successful career, whether our families are harmonious, whether countries are prosperous and whether human beings can share the peace and tranquility.

If one follows Tao, one will be prosperous; otherwise one will perish. Troubles will not find you unless you are looking for them.

Lifechanyuan was born at the end of the 5th Years of the Sun and it is the last summon sent by God and Buddha to the human beings on the earth. Lifechanyuan thinks that the Greatest Creator dominates the universe, that God and Buddha are the messengers of the Greatest Creator, that human are the favorite children of God and Buddha. The universe shares the same body with life, and life coexists with the universe. life exists when the universe exists; no life, no universe.

The Greatest Creator has arranged 36 pass of Eight Diagrams Arrays in the vast universe and in this way everyone's life can own an infinite good future. The naïve Christians have the thousand-year world; the Taoists with noble morality have the ten-thousand-year world; and the Buddhists who reach the non-form state can directly enter into the Elysium World. One can enter into the supreme lifespace or not depends on whether one can decode the Eight Diagrams Arrays of the Greatest Creator.

The difference of people does not lie in their social position or their wealth but in the purity of spiritual nature. The higher the purity of spiritual nature, the truer the belief; the dirtier the spiritual nature, the faker the belief; the higher the spiritual nature, the more advanced the thinking; the lower the spiritual nature, the more bigoted the thinking.

In the human society, the spiritual nature of Celestial Beings, saints, sages and wise men is high and pure, and they are the people with great wisdom among all human beings. People have to possess three minimum conditions to survive in this world: namely, love the Greatest Creator, love Nature and love human beings themselves. Without above three conditions, people are not qualified to live in the homeland created by the Greatest Creator.

Lifechanyuan firmly believes that the current human is reveling at the edge of cliff and may fall into abyss in any unguarded moment. Human beings should understand their existing purpose on the earth, origin and destination. The Greatest Creator, God and Buddha have spent billions of years to build such a beautiful homeland; and since then there are human and civilizations on the earth. However, human has polluted this homeland into a dirty and filthy waste yard for just thousands years; the Greatest Creator has arranged messengers to the Mortal World to enlighten human, but masses of people still ignore it and refuse to admit their errors. The wisdom of human is enough to govern themselves and the earth, while more and more people begin to ignore the Greatest Creator, lose their own nature and ruin the earth. More than that, people still try to kill each other, fight against each other and adopt a hostile attitude towards each other; they try to strife openly and secretly even among brothers, sisters, friends, neighbors, colleagues, students, husband and wife, mother and daughters. The current human civilization is moving towards the end and it is necessary for human to have a thoroughly introspection on their own civilization.

Lifechanyuan rings alarm bell for human, which for some people is musical sound for others may be death toll. What one hears is musical sound or death toll completely depends on their spiritual nature.

Lifechanyuan still believes all the natural and ecological disasters are not caused by the Greatest Creator, God or Buddha but by the bad consciousness and conducts of human; the illness of each person is not caused by nature but by imperfectness of personal soul and spirit; the problem of ecological collapse is not caused by the system but by the trouble of human nature and spiritual nature. Only from the perspective of human nature and spiritual nature, people can obtain the thorough understanding on the numerous plights and various natural and man-made disaster currently faced by human.

Different people have different spiritual natures. The deeper one involved into the secular society, the easier his spiritual nature is deceived; one is easy to go astray if he does not follow the great Tao but blindly self-refine and self-improve. Lifechanyuan is the homeland of human spiritual nature with the heart of Christ and Bodhisattva, and it comes to the Mortal World with the great love and pity of the Greatest Creator, God and Buddha in order to spread the Tao of the Greatest Creator. This homeland contains the wisdom of human and sows the hopes for humans; it is also willing to become the spiritual courier station for everyone on the way moving towards the beautiful future. Lifechanyuan still believes neither science nor religion can offer the intact answer for various abstruse puzzles of life, universe and human life confusions faced by human beings. Christianity gets to know the origin of life but can not understand the final destination of life; Buddhism gets to know the final destination of life but can not understand the origin of life. People in the religious conscience possess the spiritual nature but are short of reason; and the people in the scientific community possess reason but often are short of spiritual nature. The big wisdom needs not only spiritual nature but also reason. Only the Celestial Beings, saints, sages and the wise men in the human world are the ones possess the great wisdom with both reason and spiritual nature. And only they understand the microscopic world which can lead to the macroscopic universe; similarly the macroscopic universe can also lead to the microscopic world. The apices of the microscopic world do not exist in forms of fundamental particles, nor in form of string or superstring but operated in form of nonmaterial. Thus, they are the people who can percept the Greatest Creator in the depth of the microscopic world. Thereby, in human world only the Celestial Beings, saints, sages and the wise men understand not only the origin of life but also the final destination of life.

Lifechanyuan thinks that the despotic dictatorship system is the root of social disasters and the free democratic system is not really a panacea. Only by following the Tao of the Greatest Creator, human can bid farewell to hunger, illness, pestilence, crime, natural disaster, violence and war forever and move towards natural peace, composed freedom, healthful happiness; only this system can guarantee human beings with a good protection of themselves and the existing homeland—the environment and the belongings on the earth, realizing the harmony between human and Nature and safeguarding a good future for human beings and everyone. Lifechanyuan thinks the present life of human is the result of their past and everyone's present is the result of his own past; only when we understand this can we keep a serenity mind, instant wisdom and stop complaining everything around us and find the right direction to the right path. In order to get a good future for human beings, we need to think deeply; we can not let out your hatred with no reason and can not represent ignorant and shallow casually

for temporary gain and loss, our own private interest and various kindness and enmity.

We need to “establish the true belief” in order to build a good future for human. YinZhenqiu sighed: “All evils and all the roots of illness today was the result of lacking true belief” “We do not establish the ultimate goal among all goals; we do not establish the highest principle among all principles; we do not form the highest faith among all faith; we do not set up the ultimate standard among all standards.” “Without the ultimate goal, how can we choose specific way of life?” “Without the highest principle, how can we set up the specific principle and to abide it invariantly and willingly?” “Without all these, our life will definitely be blind, empty and absurd” We need to “forge a new humanity” in order to offer a good and beautiful future for human.

D.H. Lawrence proposes: To survive, we need to work together and digest all the knowledge of human as a whole; we must work hard to integrate a wide range of knowledge together and synthesize a great variety of languages into a huge and refreshing symphony; a variety of human nature must be cast into the furnace so as to obtain a new humanity. Please remember that what we need is not out of any private requirement—not personal requirement from any one of us. What we need is not for honor or self-satisfaction but a huge driving force of all people; with this we can create a great mankind and a free nationality including the personal freedom...One person can not work out a brand-new nationality, so this will depend on all of us. In order to reach this goal, we should work together with one heart. ..At that time, there will be a lot of people who are going to cast off the shackles and until smash all fetters. In order to provide a good and beautiful future for human, we should give up our own prejudice and convention, and extinguish the envy, selfness, rage and hatred of our mind to light the bright beacon of sincerity, braveness, kindheartedness and magnanimousness in our hearts; we have to open our minds and walk out of fog to meet new friends, to accept new consciousness, to sow new values and to embrace new life.

Lifechanyuan thinks that human is in the eve of “the biggest change and opportunity for a millennium”, and this will be an era, in which wind and cloud is surging, an era of big change and big transition, an era calling for sages and wise men and an era exploring and pursuing the infinite space-time. The clouds in the sky do not come from nowhere, neither does Lifechanyuan. The birth of Lifechanyuan is an exhibition coming from the nature’s mystery and supreme theory of the universe, and a necessity of the development of human spiritual nature and wisdom. Human beings have to believe in the Greatest Creator, revere to God and Buddha and respect life. Everyone

whether Celestial beings, saints, sages, wisemen or ordinary people, whether emperor or common people, whether elites or the masses, whether the rich or the poor, whether Christians, Buddhists, Muslims, Taoists or the witness of Jehovah, the members of Falun Gong, members of Krsna consciousness movement, communists, whether the freemen or the prisoners, whether human or livestock, birds, animals, flowers, plants, flora, fauna etc. should be respected and loved.

The Great Contour is shapeless and the supreme wisdom is boundless; “without the supreme wisdom, one can not understand the Tao of the Greatest Creator”. Lifechanyuan wishes all the Celestial Beings, saints, sages and wise men of the Mortal World to experience the secret of the Greatest Creator’s Tao so as to obtain a tiny space in Lifechanyuan and to give relief and help to all people with your spiritual nature and wisdom. Wish the Greatest Creator grants psychic energy to you! Wish God and Buddha bless you! Lifechanyuan wish all the people who pursue the Greatest Creator, worship Christ, revere to God, Buddha, Celestial Being and Tao; whether Christians, Buddhists, Muslims, Taoists or the witness of Jehovah, the members of Falun Gong, members of Krishna consciousness movement can obtain enlightenments and new life from Lifechanyuan. Wish the Greatest Creator grants psychic energy to you! Wish God and Buddha bless you!

The Greatest Creator will show concern, love and watch all of people with no difference who are busy running about for their own cause and life all day long, no matter you are the noble monarch or the humble common people; no matter you are rich with million dollars or as poor as a church mouse; no matter you are a man of great talent or you do not even know ABC; no matter you are superstars, officials, white collars or migrant laborers wandering all over the world; no matter you are communists or democratic persons with ideals and integrity; no matter you are free men or a criminal prisoner... Lifechanyuan will always open its door and expect the arrival of you before the year of 2013. Wish you can open your mind before the Greatest Creator, God and Buddha, can obtain enlightenment and new life from Lifechanyuan.

Wish the Greatest Creator grants psychic energy to you! Wish God and Buddha bless you! The Greatest Creator, God and Buddha is with us! Let’s travel together with the wisemen and run to the mysterious future filled with vitality, freedom, peace, agility and beauty.

# Lifechanyuan

## Xuefeng

After seven- thousand years exploration in the darkness, the mankind finally have Lifechanyuan.

Lifechanyuan---is the beautiful homeland for the spirit and soul of the mankind, a transit station to the supreme life space, it is the source of subliming Spiritual nature and obtaining spiritual wealth for us all.

Lifechanyuan——is the integration of Christianity, Catholicism, Islam, and Buddhism, Taoism, science, Mao Zedong thought which truthfully explains the origin of the universe, the mystery of life, and the true meaning of life.

Lifechanyuan—— proved the existence of The Greatest Creator, illustrated the eight characteristics of The Greatest Creator and the eight major relations between The Greatest Creator and human being trough 40 special natural phenomena and 8 logical reasoning.

Lifechanyuan——Through the analysis of the phenomena of life, explained the essence of life, the cause and effect relations of life transformation in the Transmigration of supreme, middle and lower life spaces and also illustrated the origin of human beings, and interpreted the mystery of the pyramids of Egypt.

Lifechanyuan——showed the view of 36-dimension space(namely the 36 different levels of the world),especially the real vision of the perfect thousand-year world, the immortal ten-thousand-year world and Buddha—the Elysium World to the human beings based on the interpretation of time, space, energy and material and directed a bright and wonderful future for human beings.

Lifechanyuan——will lead Chanyuan celestials live through the catastrophe fore-and-aft 2013 and enter into Lifechanyuan era.

Once you enter Lifechanyuan, you enter into a brand new life world, you enter another life program, and you will get to know your past, see your own future.

The sorrow and pain of life is aroused from the people who are defective in spirit and soul which not only prevents us from gaining the joy and happiness of life but also affects and hurts our relatives and friends and others.

All the misfortunes in life, apparently, seem to be caused by outer factors, but in fact, are mainly the results of each individual's own spirit and soul defects, and have nothing to do with The Greatest Creator, and the devil, society or others. Therefore, the primary task of human life should be the pursuit of spirit and soul, it is the only way to reach the states of "grasp the key from among many ", "pursue good fortune and avoid disaster ", "celebrate peace by singing and dancing ".

Power, status, money, sex, fame can sustain our profane desires and satisfy our pursuits. However, the abundance of spiritual and the pureness of spiritual senses will meet our extraordinary refined, high-grade desires, are actually more important for us to pursue.

Lifechanyuan——encourages people to participate in various religious activities and social activities, because religious activities can help us to relieve the pain of spirit and soul, whereas social activities can make our life colorful and rich in variety and remove the pain concerning materials in our real life.

Our Life can't be without belief. The life without belief is a contradictory and perplexed life, a life without direction, a life without future and is doomed to be a failure. Misbelieves can result in erred life. No matter who you are, I hope that you can find some time in your busy life, and participate Lifechanyuan's activities, and see whether you can get something helpful.

People can be divided into five kinds: Ignorant person, Laity, Mortal, Celestial beings. If I say: "I've been dispatched by goddess and Buddha and come from the thousand-year world to enlighten the human being in the Mortal World." Will you believe it?

Even the most outstanding musician cannot let the cattle appreciate his glamour and intoxicated. " Lofty Mountains And Flowing Water "; even the greatest singer cannot teach pigs to sing fair-sounding songs; even the most valuable diamond means nothing to small donkeys; even the most lofty realm of spirit and soul finds useless to the people who are deeply trapped in the noisy world. "The medicine can not cure the vital disease; likewise Buddha

can only save those who are fortunate people. I wish all the people in the world can have chance to relate to celestials or Buddha.

**Open the windows and the sunlight and fresh air will come in.**

**Take a broad view and you will see faraway mountains are fresh and green.**

**Stay and study in Lifechanyuan will a new life begin.**

**You will see clear paradise scenes.**

June 18, 2003

# **The Media, the Government, and Worthy People of the Society are Expected to Pay More Attention to Lifechanyuan**

**Xuefeng**

Lifechanyuan does not aim at a certain region or a certain country, instead it aims at the whole mankind and the whole world.

It is very difficult to have a comprehensive understanding of Lifechanyuan and the new way of life of the Home Without Marriage and Family, because this is a holographic thinking and holographic pattern. Nevertheless, anyone can feel and experience the happiness and peace this holographic thinking and pattern can bring to nature, different species of LIFE, society, and everyone.

Currently there are nearly 170 people living in the Home Without Marriage and Family, including the blind, the deaf and the dumb, and people as old as eighty or as young as three and four. Most are middle-aged. They live in three subunits of the home.

Through three years of practice, we have summed up the following eight characteristics that are worthy of attention.

## **1. There are no management**

The Home Without Marriage and Family has not prescribed any rules, regulations, or commandments. There is only one director to take charge of each subunit and there is no one else involved in the management. And what a director does can barely count as management. They are only ordinary laborers who have taken up the role of servants responsible for the overall management of production and life. The directors do not have the right to impose their own wills upon anyone else. Everything goes on according to free will and volition. The economic management of the home is completely holographic. There is no accountant or teller, there is no one for supervision, and there is no office of any form.

## **2. There is no money transaction in the home**

Inside the Home Without Marriage and Family, money has no use. There is no transaction of money involved in person-to-person relations, and there is absolutely no conflict of interests of any kind.

### **3. Marriage and family have disappeared**

People in the second home do not marry, and the original husband-wife relationship is cancelled, and the original family relations are dissolved. All members of the home are relatives to each other.

### **4. Private ownership has disappeared completely**

Once inside the home, each member shall hand over all his or her belongings to the home and shall no longer claim possession of any private materials or articles. Complete communist life is enforced in the home. The home is wholly responsible for all aspects of each member's life, including the raising and education of children and the care for and support of the old people.

### **5. The members serve each other and cooperate with each other in their division of labor**

There will be a person responsible for each specific job in the home. People engaged in cooking need to take charge of cooking only, people with a job of laundering will be responsible for laundry only, those with the work of cleaning care only for cleaning, and people involved in planting vegetables shall concern them only with planting... They serve each other on the basis of cooperation and division of labor. There is not any trace of the troubling chores that have been pestering the traditional small family.

### **6. From each according to his capability, to each according to his need**

Members differ from each other in capability, in physical strength, and in intelligence. As long as one has tried his best without being forced or supervised, he can freely get materials from the home according to his need, on the condition that he does not waste. You can eat as much as you can, and it doesn't matter even if you can have eight steamed bread at one time. The home does not distribute things, and you can go to the storehouse to claim whatever you are in need of. The home will purchase these articles from outside to satisfy your needs.

### **7. Efficient and rich cultural life**

The Home Without Marriage and Family is extremely efficient in production. Construction and other kinds of work are going on in an orderly and efficient manner. Once the work or construction is decided upon, it will be put into practice immediately and greatest effort will be made to ensure the best quality. Participation in creation and labor has become the primary requirement for each member. Each member will feel uncomfortable if he is asked to have a rest or not to participate in collective labor and activity. There are endless games and cultural entertainment activities in the home. All those

who have stayed in the home for more than half a year can both sing and dance.

#### **8. The home is harmonious, free of crimes, with women enjoying a high status**

Every subunit of the home is beautiful, clean and tidy, peaceful and serene, and cozy and harmonious. The relations of man between man, man between society, and man between nature are harmonious without any contradictions and conflicts. For three years, there have never occurred any crime, and there have rarely been any quarrels, fights, or curses. The home has already achieved a state in which “no one pockets anything found on the ground and the doors are unbolted at night”. Women enjoy a higher status in the home. The home has comprehensively guaranteed the security and human dignity of women. Now no one who lives in the home on a permanent basis would like to leave the home.

Will the Home Without Marriage and Family of Lifechanyuan prove only to be another flash in the pan, just like many utopian and communist communities in history that have enjoyed only transient glory? The answer is “no”. It will not just be a blue streak; instead it has a broad and bright prospect that keeps unfolding. It has powerful vitality. It can be predicted that in the near future the Home Without Marriage and Family will take root, blossom, and flourish all over the world, and benefit mankind.

It is hoped that media, government, and worthy people of the society will pay more attention to Lifechanyuan and Home Without Marriage and Family. You are welcome to make field investigation and survey in the home and get first-hand knowledge of the activities held in the home. We are all committed to realizing the great harmony of communist society, where “the worthy person can fully utilize his talents, the whole world is like one family”, “No one will keep lost articles found on the roadside, and the houses need not be bolted at night”, everything will be in complete harmony, the weather will be good for harvest, and everyone will be happy, free and pleasant.
